

**EHS GOALS OF BRIDGESTONE POZNAŃ FOR 2024**

1. Increasing employee awareness of recognizing threats and reporting them as DH or NM through the implementation/reactivation of the B-Me – KYT tool.
2. Increasing employee awareness of conducting and reporting BOS observations, with a simultaneous increase in the number of observations by 15%
3. Continuation of B-ERGO Analyzes at work stations to determine and eliminate ergonomic risks. Plan for 2024 - 16 workstations.
4. Raising employees' awareness of occupational health and safety by organizing Safety Days 2024.
5. Training another group of employees in hazardous observations using the "STOP DuPONT" method - training for Engineers in 2024.
6. Continuation of risk assessment using the JSA method (risk analysis for each task separately). Plan for 2024 - 79 workstations.
7. Continuation of the LOTO ECP APM project. Plan for 2024 – 51 machines.
8. Strengthening knowledge about fire protection requirements and anticipating potential fire hazards by organizing fire protection training for people ordering and accepting hot work's.
9. Building the practical knowledge regarding the correct reaction in case of the fire alarm through practical evacuation exercises.
10. Building competences among our employees in providing first aid and responding to dangerous situations through practical training for the rescue brigade.
11. Making employees aware that it is worth taking care of safety also outside the workplace - "Safe Holidays" Campaign.
